Dear Dr. Norden,

Having had over forty five years of 20:20 vision I never really appreciated just how lucky I was until I had to endure four years with reading glasses and contact lenses. I had considered surgery, but was always too concerned about a significant compromise in my vision that might be worse than wearing contact lenses.

Not only did you and your team give me the confidence to go ahead with the surgery, but the results really were and are quite liberating. I am again glasses and lens free!

Thank you for your great work!

Kind Regards,
