June 23, 2015

Dear Dr. Norden and Staff:

Thank you for seamlessly guiding me through the LASIK process in such a caring and professional manner. For years I had delayed this decision for a variety of reasons, but mostly work related. As a busy orthopedic hand surgeon, I felt that I could never find the downtime for the pre-op preparation and the post-procedure recovery. Also, there was the general apprehension involved when one's job includes routinely dissecting the small anatomic structures of the hand and wrist.

While researching options for consultations, it quickly became clear that Norden Laser Eye is the healthcare professional's choice. You came highly recommended by surgeons, operating room nurses, and various other medical practitioners in my hospital, many of whom are themselves highly satisfied postoperative patients. During my first consultation, it was obvious why this practice is so highly regarded. You answered my many questions and assuaged my fears in an intelligent and compassionate manner.

A short time later, I underwent a fifteen-minute painless procedure. The very next day I was back in my office with 20/15 vision (and no contact lenses!) examining patients. I am grateful that I will never again have to worry about putting in contacts in the middle of the night for an emergency case. Never again will I have to experience the dreaded, irritating "red eyes" that routinely accompanied a long stretch of work while wearing contact lenses.

I cannot say enough about the care I have received at Norden Laser Eye Associates. My only regret is not getting this procedure done sooner! I now look forward to my first summer at the beach without contacts, followed by my first lens-free ski run this winter. Thank you, Dr. Norden, and thank you to your excellent, courteous staff. I have already strongly recommended you to friends, family, patients, and colleagues alike, and will continue to do so.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kevin Roenbeck'. The signature is fluid and cursive, with a long horizontal stroke at the end.

Kevin Roenbeck, M.D.
